S010633	S010633 M.C.S. ENTRIES = ++PTF (S010633) SET EDIT MARGIN COMMAND IN DOCUMENT PROBLEM DESCRIPTION: 1. The command SET EDIT MARGIN RIGHT/LEFT is ignored when in EDIT or DISPLAY for DOCUMENT. The EDIT MARGIN can be changed while in the DOCUMENT Definition Facility, the same as for PROGRAMS and REPORTS. 2. The INCD panel is missing from the ADRPNL library. This prevents the use of the D IND DOC command with the edit margin set to RIGHT. SYMPTOMS: 1. The SET EDIT MARGIN command is ignored while the DOCUMENT is in EDIT or DISPLAY mode. 2. If the SET EDIT MARGIN command is issued from the DOCUMENT INDEX display, the following error message is displayed in the status line: IDADERRP42E - INTERR: Internal PNL error If the margin is already set to the right and a D IND DOC command is issued, then the following message is received: IDADERRP31E - INTERR: Main PNL not found, PNL=INCD IMPACT: The behavior is inconsistent with other IDEAL entities. CIRCUMVENTION: 1. END the DISPLAY or EDIT of the DOCUMENT to issue the SET EDIT MARGIN RIGHT or LEFT command, then return to the DOCUMENT. 2. Make sure the edit margin is set to LEFT to issue the D IND DOC command.
