Service	Details
S009473	S009473 M.C.S. ENTRIES = ++PTF (S009473) INCORRECT IDENTIFICATION OF ADABAS DATABASES UNDER CICS PROBLEM DESCRIPTION: While monitoring Adabas applications running in a CICS environment where multiple databases can be in the transaction mix, CA Mainframe Application Tuner can sometimes incorrectly identify the database associated with observed Adabas activity. SYMPTOMS: Incorrect database identification numbers (DBID) can appear on the Adabas Statements panel. IMPACT: Identification of databases is unreliable. CIRCUMVENTION: None. PRODUCT(S) AFFECTED: CA MAT base component Related Problem: MATUNE 846 Copyright (C) 2019 CA. All rights reserved. R00187-EES120-SP0 DESC(INCORRECT IDENTIFICATION OF ADABAS DATABASES UNDER CICS). ++VER (Z038) FMID (CEESC00) PRE (R096674 R098861 R099194 S001740 S004661 S006253 S007230) SUP (ST09473)

Service	Details		
S010529	S010529 M.C.S. ENTRIES = ++PTF (S010529) TRACING/LOGGING OPTION MENU ENHANCEMENT DESCRIPTION: Tracing and Logging options have been available in CA Mainframe Application Tuner since its inception. However, the Tracing/Logging Option menu is new to CA MAT version 12. Tracing options assist Customer Support in following the flow of the CA MAT monitoring code to determine where a problem might be occurring. There are a number of settings and combinations which can be used, depending on which parts of CA MAT are suspected of having a problem. Logging options assist Customer Support in following the flow of activity in the CA MAT server address space to determine where a problem might be occurring. There are only a few logging options. The Tracing/Logging Option menu assists customers in activating and de-activating CA MAT tracing and logging options at the direction of Broadcom Customer Support. Additionally, when a trace is activated via the menu, the user's monitor data set allocation parameters are changed to values recommended by Customer Support. The original customer values are remembered and restored when the trace is deactivated. PRODUCT(S) AFFECTED: CA MAT base component Version 12.0 Related Problem: MATUNE 856 Copyright (C) 2019 CA. All rights reserved. R00201-EES120-SP0 DESC(TRACING/LOGGING OPTION MENU). ++VER (Z038) FMID (CEESC00) PRE (R094523 R094695 R095096 R095427 R096511 R096674 R096751 R098861 R099194 R099698 R099706 S000366 S000390 S000527 S000592 S000672 S001740 S004801 S005203 S006253 S006316 S006377 S006615 S006630 S006642 S007227 S007230 S007631 S007641 S008560 S008951 S008989 S009066 S009819 S010122) SUP (ST10353 ST10529) ++HOLD (S010529) SYSTEM FMID(CEESC00) REASON (ACTION) DATE (19296) COMMENT (<table border="1"> <tr> <td>CA MAT base component</td><td>Version 12.0</td></tr> </table> SEQUENCE After Apply PURPOSE To allow this enhancement to issue commands to the CA MAT server space. USERS Those wanting to activate/deactivate MAT Tracing/Logging AFFECTED options using this enhancement. KNOWLEDGE User Profile parameters. REQUIRED ACCESS User Profile parameters. REQUIRED ***** * STEPS TO PERFORM * ***** This enhancement issues z/OS commands to the CA MAT server. For this reason the system utility that is used to issue these commands must be known. This enhancement determines the utility to use based on the setting of the Active Jobs Panel Select command field in the	CA MAT base component	Version 12.0

Service	Details
	user s profile. If you are using the Active Jobs panel to invoke measurements, the information needed by this enhancement is already available and you may skip the next steps. If you are not using the Active Jobs panel to invoke measurements, or if you are not sure, perform the following steps. 1. To access and set this field, go to the Profile Parameters panel by choosing option 0 (zero) from the Primary Option Menu. The Active Jobs Panel Select command field appears near the top of the display. 2. If CA SysView is the system utility product in use, enter "SYSV ACTIVITY /" in this field. If IBM SDSF is in use, enter "ISF ST /". Currently, these are the only two products supported for issuing commands. 3. Press PF3 to save the changes.). ++HOLD (S010529) SYSTEM FMID(CEESC00) REASON (DOC) DATE (19296) COMMENT (<pre> +-----+ CA MAT base component Version 12.0 +-----+ ***** * PUBLICATION * ***** You can view documentation for CA Mainframe Application Tuner on our documentation portal at docops.ca.com/camat </pre>).
