SO12441	SO12441 M.C.S. ENTRIES = ++PTF (SO12441) (E) DEFERRED FILE CREATION ENHANCEMENT DESCRIPTION: This enhancement allows the Endeavor Administrator to define a parmlib member in the C1DEFLT5 TYPE=MAIN section that will be used for Deferred File Creation. With this feature enabled, when an allocation of Endeavor Processor, Base Library, Delta Library, etc. fails for a "not found" condition, the DFC parmlib member will be searched for a matching entry for the DSN and a dynamic allocation of the file will be attempted with the parameters supplied for that DSN.
