Service	Details
SO13641	SO13641 M.C.S. ENTRIES = ++PTF (SO13641) USERLIB ALLOCATIONS ARE NOT FREED BY TRANSFORMERS PROBLEM DESCRIPTION: When a file is created with USERLIB files defined by an OUTPUT statement and that file is transformed by the CA Spool Java Transformers, the files may not be freed when the transformation is complete. This will occur whenever AFP to PCL Soft Font support is not in use when transforming AFP to PCL and will also occur using AFP to PDF or Postscript. SYMPTOMS: File contention occurs between the CA Spool Java Transformer task and any other job that requires exclusive use of a file that was specified as a USERLIB on a previously transformed file. IMPACT: Batch jobs requiring exclusive use of a file previously specified as a USERLIB on a transformed file will be delayed. CIRCUMVENTION: Temporarily stop and restart the CA Spool Java Transformer task.
