Service	Details
SO13026	SO13026 M.C.S. ENTRIES = ++PTF (SO13026) Z/OSMF POST-INSTALL CONFIGURATION WORKFLOWS ENHANCEMENT DESCRIPTION: New set of 9 z/OSMF workflows enables easier post-installation configuration tasks. ITKWFL01 - Create library dataset aliases This workflow enables reuse of your existing JCL from an earlier release of CA Database Management Solutions for IMS for z/OS. You can create aliases relating the old library names to new library names that now exist. ITKWFL02 - Create CA Compress library This workflow copies modules that are required exclusively for release 20 of CA Compress for IMS to run standalone. You can concatenate this library in your STEPLIB in online IMS system region. ITKWFL03 - Create load library containing only specified products This workflow creates usable library containing only specified products. ITKWFL04 - Create DBAICE USERMOD This workflow applies a user modification (USERMOD) to DFSUDMP0 to invoke CA Database Analyzer for IMS for z/OS as a user exit to gather statistics, perform integrity checks, and verify pointers of the database data set. ITKWFL05 - Create PRMRESL library This workflow creates updated IMS modules in the PRMRESL library so you can test PRM without applying the PRM USERMODs. ITKWFL06 - Install IMS Information Repository This workflow allocates database areas and creates IIR tables. Tables are then immediately ready for use. ITKWFL07 - Migrate IMS Information Repository (IIR) This workflow migrates Datacom/AD database schema of your existing IIR for IMS tools release 19 installation to IMS tools release 20. ITKWFL08 - Configure Conditional REORG This workflow configures Reorg (CREORG) by writing properties file on USS. ITKWFL09 - Customize and Start ITK Started Task This workflow guides you through ITK Started Task installation. The workflows are located in CIMTXML dataset. Service	Details
SO14971	SO14971 M.C.S. ENTRIES = ++PTF (SO14971) ITKSTC ABENDS SB78 ON Z/OS 2.2 AND LOWER CA Database Management for IMS for z/OS ITK Started Task component (ITKSTC) PROBLEM DESCRIPTION: ITKSTC can abend with SB78 code and reason code 4 during its starting and initialization. This happens for both warm start and also cold start. This issue happens only when running on z/OS 2.2 and lower releases after installing PTF SO13652. SYMPTOMS: ITKSTC abend with code B78 and reason code 4. In JESMSG LG data set you can see following messages: HPO2035E HPOINIT TERMINATING WITH ABEND SB78 U000 HPO2002I HPO TERMINATION INITIATED HPOC009I CA HEALTH CHECKER SUCCESSFULLY TERMINATED HPO2003I HPO TERMINATION COMPLETE IMPACT: ITK Started Task is not running. Provided service BMP Pause and Resume is not available. Utilities like Full Function Online Reorg or others executing with parameter STCSSID= are unable to connect to ITKSTC and terminate. CIRCUMVENTION: None. PRODUCT(S) AFFECTED: CA Common Component for IMS for z/OS Version 20.0 Related Problem: COM 534 Copyright (C) 2020 CA. All rights reserved.
