SO15318	SO15318 M.C.S. ENTRIES = ++PTF (SO15318) WEB VIEWER: REPORT LIST FILTER REPORT ID WITH SPACE FAILS PROBLEM DESCRIPTION: The Report ID input field on the report list Filter dropdown panel is not parsed correctly when the value entered by the user includes a space. SYMPTOMS: Matching reports are not found when the Report ID entered by the user on the Filter dropdown panel includes a space. For example, a filter on Report ID "ABC *" fails to find reports "ABC DEF", "ABC XYZ", etc. The result is either a limited number of reports listed or error message: CAHVS0151E No reports found matching the selection criteria IMPACT: Reports not found when a user enters a Report ID with a space on the Filter dropdown panel. CIRCUMVENTION: Expand the filter result set by removing the space from Report ID field. For example, to find reports "ABC DEF" and "ABC XYZ" use "ABC*" as the Report ID rather than "ABC *".
