4

Service	Details
S015134	S015134 M.C.S. ENTRIES = ++PTF (S015134) STORAGE LEAK ABOVE-THE-LINE WHEN USING PLEXQ PROBLEM DESCRIPTION: When using the PLEXQ facility of CA XCOM Data Transport for z/OS, some small temporary storage areas are not getting properly freed when they are no longer needed. SYMPTOMS: When running the XCOM server (or other long-running task which calls XCOMJOB as an API) S878 abends may begin to occur. The storage areas in question are above-the-line, so it may take a while for the abends to occur. IMPACT: The impact of these abends will vary depending on which function or task within the region is denied storage when it is requested. CIRCUMVENTION: Recycling the XCOM server or task which calls XCOMJOB repeatedly as an API will alleviate or greatly reduce the possibility that the abend will occur. PRODUCT(S) AFFECTED: CA XCOM for z/OS 12.0 Related Problem: XCMVS 1513 Copyright (C) 2020 CA. All rights reserved.
