Service	Details
LU00204	LU00204 M.C.S. ENTRIES = ++PTF (LU00204) FIX VARIOUS COMMAND ERRORS WITHIN INSTALLATION SAMPJCL JOBS PROBLEM DESCRIPTION: A couple of the installation sample JCL members have typos and other command syntax errors which result in the commands failing if they are left as is. SYMPTOMS: When run, various commands in the jobsteps will fail due to syntax errors, resulting in the command not being run. IMPACT: Failed commands will not be run, resulting in things like missing permissions, ID's not being created, etc. CIRCUMVENTION: Manually fix the commands in error to correct the syntax errors. Then, resubmit the jobs or rerun the commands separately. PRODUCT(S) AFFECTED: CA Mainframe Advanced Authentication Version 2.0 Related Problem: MFADVA 12816 Copyright (C) 2021 CA. +----------+------------------------------------------------------------+
|ACCESS    | ESM commands, Job submission                               |
|REQUIRED  | Console commands                                           |
+----------+------------------------------------------------------------+
**************************
* STEPS   TO   PERFORM *
**************************
1.  If you have completed installation and configuration of the AAM
Started Task, no further action is necessary.
2.  If you have not yet completed installation and configuration of
the AAM Started Task, deploy the updated MFAIxxxx jobs from this
PTF, then update and submit them.
```
