| LU03978 | LU03978   M.C.S. ENTRIES  = ++PTF (LU03978)<br><br><br>PRODUCT PTF ANALYSIS SUPPORT<br>PROBLEM DESCRIPTION:<br>This PTF will enable you to use a feature in SYSVIEW called Product PTF<br>Analysis. This PTF delivers an element that contains metadata for all<br>published PTFs for Datacom VSAM Transparency.<br>Any subsequent PTF published after this PTF will contain its own PTF<br>tracking element metadata.<br>What is Product PTF Analysis?<br>Product PTF Analysis combines PTF tracking elements from your run-time<br>XML library with maintenance data found in your product SMP/E<br>installation CSI library. Product PTF Analysis provides the ability to:<br>* Determine the PTFs and APARs currently applied.<br>* View detailed descriptions of published PTFs.<br>* Using the Cross System component, you are able to compare the PTFs<br>applied on each LPAR.<br>* Detailed SYSMOD information can be viewed from the SMP/E CSI data set<br>used during installation and maintenance.<br>Product PTF Analysis shows this information for all Broadcom Mainframe<br>products that have the necessary XML data available. Please note that<br>not every product will update XML data for all prior and new fixes at<br>the same time. Consult each product's documentation for more<br>information.<br>How can I view Product PTF Analysis?<br>SYSVIEW 16.0 Feature PTF LU03153 added a Product PTF Analysis feature<br>that performs an analysis of product SMP/E CSIs and PTF tracking<br>metadata. A PTFS command was added to SYSVIEW 16.0 with PTF LU03153<br>that performs the analysis. For more information, see the "New Features"<br>page on the SYSVIEW Tech Docs Portal here:<br>https://techdocs.broadcom.com/sysview<br>DATACOM VSAM TRANSPARENCY                              Release 14.0<br>Related Problem:<br>DBVT   15674<br>Copyright (C) 2021 CA.
