CA RS 2204 - PTF LU04906 Details

7

Service	Details		
	F CTS,MSG,HCK,REINIT		
	This command will request that HCK stop and restart all available CA TLMS health checks. After applying CA TLMS maintenance to existing health checks, or if new health checks are added, this command can be used to cause the new health checks to be started or refreshed. You do not have to stop and start the entire CTS address space.
