LU05844	LU05844 M.C.S. ENTRIES = ++PTF (LU05844) SUPPORT FOR IBM FUNCTION REGISTRY, ADDITIONAL SCRT REPORTING ENHANCEMENT DESCRIPTION: This product enhancement delivers updated Datacom/DB code which enables Datacom registration with the IBM Function Registry for z/OS. As a result, entries for Datacom and its features can be displayed in the IBM Function Registry by using either the FXEPRINT batch job, the FXE console commands or by using the SYSVIEW FXE commands. Datacom/DB added feature registration for components that previously had license checking removed. This will cause entries for these components to appear in SCRT reports if they are used during the reporting period.
