PURPOSE Administration of user defined variables and control	
options from the GUI as part of CEM Simplification.	
Administration of Policy Actions via API requests.	
Export policy set from the GUI.	
+-----+	
USERS All Users	
AFFECTED	
+-----+	
KNOWLEDGE CEM installation/configuration/deployment	
REQUIRED procedures.	
+-----+	
ACCESS Access to the CEM installation/configuration/deployment	
REQUIRED procedures and libraries.	
+-----+	

* STEPS TO PERFORM *	

Before applying the APAR	
A. Shut down the CEM TOMCAT (CEMETOM by default) started task.	
B. Zowe services are required by CEM after this maintenance is applied. If you are using the Zowe services shipped with CEM, shut down the CEM ZOWE task (CEMEZOWE by default). If you are using an external zowe, there is no need to shut it down.	
C. If you are using the CEM Policy Server, shut down the Policy Server (CEMPSRVR by default) started task.	
D. If you are using LDAP, shut down the LDAP (CEMELDAP by default) started task. You must apply LDAP PTF LU07893.	
After applying the APAR	
A. If none of the deployment, customization and configuration steps have been completed, no special action is needed. You can proceed with those steps.	
B. If an installation deployment was done:	
1. If desired, make a backup copy of your runtime libraries.	
2. You must deploy the updated CCES* libraries to your runtime dataset names.	
3. If you are using CEMELDAP, then you must deploy the updated LDAP libraries.	
4. Refer to the 'Deploy Product Maintenance' section in the Compliance Event Manager documentation for assistance.	
C. If you are using the CEM ZOWE started task (CEMEZOWE by default), submit the J01165SP or CEMZUSS1 job in your cemehlq.cememlq.CUSTOM.JOBLIB.	
D. If you are using LDAP, restart the LDAP task (CEMELDAP by default). If you are using the CEM Policy Server, restart the Policy Server task (CEMPSRVR by default).	
E. If you are using the ZOWE services shipped with CEM, restart the CEM ZOWE task (CEMEZOWE by default).	

Service	Details															
	F. After the ZOWE task startup is complete, restart the CEM TOMCAT task (CEMETOM by default). G. If you want to configure and use the new features added by this PTF, refer to following sections in Compliance Event Manager documentation: 1. Migrate System Controls from CEMECEEV to the UI 2. Migrate User Variables from CEMECEEV to the UI H. Restart any running listener tasks (Alert, Monitor, Logger, and Warehouse). I. Restart the CEM Router (CEMERTR by default) or issue the following command: <pre>F CEMERTR,RELOAD ECARTRCM).</pre> <pre>++HOLD (LU08712) SYSTEM FMID(CCEM600) REASON (DOC) DATE (23013) COMMENT (+-----+ COMPLIANCE EVENT MANAGER Version 6.0 +-----+ ***** * PUBLICATION * ***** Starting with this enhancement, Compliance Event Manager requires Zowe services.
