ADD/UPD MBR/FILE PANELS DO NOT ACCEPT LINE COMMANDS AT COL 2
PROBLEM DESCRIPTION:
In ISPF Classic, the Add/Update Element panel does not accept a line
command that starts in the 2nd column.
SYMPTOMS:
In the ADD/UPDATE panel, when choosing a member from a list and
selecting a line command that is not left justified, it fails and
"INVALID OPTION" is displayed. For example, if " A" or " U" are entered
IMPACT:
Add/update do not behave as intended when command is not left justified.
CIRCUMVENTION:
Type line command starts from 1st column. Type "A " to add elements,
"U " to update elements in line command.

ALLOW DISABLING EMAIL NOTIFICATION FOR PARTICULAR USERS
ENHANCEMENT DESCRIPTION:
In order to disable email notification for a particular user,
an administrator can specify an invalid EMAILID value (non-existing email
address) in the ESMTPTBL table. However, Endevor still makes
a "send email request" to the SMTP server, even though the email cannot
be delivered.
This enhancement introduces a new EMAILID value, '\do.not.send', which
completely prevents requesting SMTP to send emails to a particular user.
This enhancement also introduces support for single quotes in the EMAILID
value. Each single quote in the EMAILID value must be coded as two single
quotes and the whole EMAILID value should be enclosed in single quotes.
PRODUCT(S) AFFECTED:
Endevor Software Change Manager                        Version 18.0
