Service	Details
LU08411	<p>LU08411 M.C.S. ENTRIES = ++PTF (LU08411) REWORK(2023037)</p> <p>TRUNCATION OF USER STATUS FIELD TO 28 CHARACTERS</p> <p>PROBLEM DESCRIPTION:</p> <p>When the AFM Status() field contains 29 characters and begins with the generic "Executing" status term, the entire content of the job status is truncated to 28 characters. After applying the fix the AFM Status() term "Executing" is shortened to "Exec" to ensure that the job status field content fits the 28-character limit. For example "Executing at 1234567890123456" is changed to "Exec at 1234567890123456". The content in the example now fits the 28-character limit.</p> <p>SYMPTOMS:</p> <p>The CSF status field is truncated to 28 characters.</p> <p>IMPACT:</p> <p>Expected information does not appear.</p> <p>CIRCUMVENTION:</p> <p>Read directly the incoming AFM Status() field</p> <p>PRODUCT(S) AFFECTED:</p> <p>ESP WORKLOAD AUTOMATION Version 12.0</p> <p>Related Problem:</p> <p>ESPWA 19061</p> <p>(C) 2023 Broadcom Inc and/or its subsidiaries; All rights reserved</p> <p>R00344-D7Y120</p> <p>DESC(TRUNCATION OF USER STATUS FIELD TO 28 CHARACTERS).</p> <p>++VER (Z038)</p> <p>FMID (CD7YC00)</p> <p>PRE (LU01675 LU02226 LU04550 S007101 S007178 S009670 S012402)</p> <p>SUP (LT07801 LT08411 LU07801 S005895 S012554 ST05895 ST11896 ST12554)</p>
