LU09466	LU09466 M.C.S. ENTRIES = ++PTF (LU09466) REWORK(2023075) /EMAIL HEADERS ARE NOT RFC 5321 AND 5322 COMPLIANT PROBLEM DESCRIPTION: The /EMAIL command 'From' and 'To' headers are not compliant with the RFC 5321/5322 rules. The 'From' value is enclosed in double quotes and the 'To' value is the actual member. The 'To' value must be in the form <xxx@yyy.zzz> to be compliant. This PTF will remove the double quotes from the 'From' value. Since the 'To' value is essentially a "dummy" value, it will be left empty. SYMPTOMS: Sites that have their SMTP servers set up to meet the RFC 5321/5322 rules will reject the /EMAIL requests and actual users will not receive their emails. IMPACT: Users may not receive emails indicating job failures, abends or late status.
