LU09773	LU09773 M.C.S. ENTRIES = ++PTF (LU09773) REWORK(2023136) RMOCPT04 NO MORE ROOM IN CHECKPOINT WHEN UTILIZATION IS LOW PROBLEM DESCRIPTION: Due to checkpoint corruption, the Deliver started task may issue RMOCPT04 No more room in checkpoint when overall percentage of utilization is low. The Deliver checkpoint processor will now automatically reclaim lost free blocks when checkpoint free block queue indicates no free blocks and utilization is less than 100%. Additional verification of free block queue will also be performed to prevent accidental reuse of non free blocks. For better visibility of checkpoint utilization, RMODBASE STATUS will report the number of free checkpoint blocks, and the RMOCPT13 message will include checkpoint utilization percentage and number of used blocks at beginning and end of the daily cycle. SYMPTOMS: The Deliver started task issues RMOCPT04 message and abends with U0004 abend. RMODBASE STATUS indicates that the checkpoint percentage used is less than 100%. IMPACT: Deliver started task abends and all pre-spool jobs being processed by Deliver hang. The checkpoint data set will have to be rebuilt with RMODBASE MAKECKPT function before restarted the Deliver started task. CIRCUMVENTION: None.
