Service	Details						
LU09537	LU09537 M.C.S. ENTRIES = ++PTF (LU09537) REWORK(2023143) MISSING / INCORRECT INFORMATION IN REPORTS FROM LOAD MODULES PROBLEM DESCRIPTION: There are two separate but related issues being seen in Load Module reports. These are: 1. When a Load module is added to Endevor as an element and then browsed, the LOAD MODULE INFORMATION SUMMARY is displayed. If a load module is added from a PDSE, that is, it is a program object, then the LOAD MODULE INFORMATION SUMMARY has two errors: - The CSECT sizes are rounded up to a multiple of eight. - The dates and translator information are missing for some objects. The LOAD MODULE INFORMATION SUMMARY shows the correct information for load modules that have been added from a PDS. 2. The API listing of footprints using LIST DIRECTORY does not get all of the complete footprints in a load module. The footprint information is printed correctly in the REPORT80 output. SYMPTOMS: All program object CSECTs are marked as entry points with a size of 0 and an incorrect date. All program object CSECT sizes are rounded up to a multiple of eight, and some modules have missing dates and translator information. Footprint information is missing for some CSECTs in the LIST DIRECTORY API output. IMPACT: The user cannot use Endevor to analyze the program object's metadata. CIRCUMVENTION: If possible, copy the program object to a PDS before adding it to Endevor. PRODUCT(S) AFFECTED: <table> <tr> <td>Endevor Software Change Manager</td><td>Version 18.0</td></tr> <tr> <td>Endevor Software Change Manager</td><td>Release 18.1</td></tr> <tr> <td>Endevor</td><td>Version 19.0</td></tr> </table> Related Problem: ENDBAS 7790 (C) 2023 Broadcom Inc and/or its subsidiaries; All rights reserved R00318-SCM181 DESC(MISSING / INCORRECT INFORMATION IN REPORTS FROM LOAD MODULES). ++VER (Z038) FMID (CSIQI10) PRE (LU00086 LU00344 LU08349) SUP (LT09147 LT09537)	Endevor Software Change Manager	Version 18.0	Endevor Software Change Manager	Release 18.1	Endevor	Version 19.0
