Chapter 1: Business Relationship Manager (BRM) Accelerator Release Notes

Welcome to the CA Clarity PPM Business Relationship Manager Accelerator add-in (BRM Accelerator) Release Notes. These notes can help you get started with this add-in.

For information about installing add-ins, search *How to Install an Add-In*.

For information about add-in version compatibility with CA Clarity PPM, see the *Change Impact and Upgrade Guide*.

Note: The removal of old Portfolio features affected the BRM Accelerator. This add-in had portfolio-related portlets that were removed. The pages that displayed the portlets were left in place. The pages were left to accommodate customers who placed custom portlets or other valid portlets on the pages. If no custom or other portlets are present, the pages appear blank. Review your Studio portlet pages and delete any that are empty.

Documentation

IT Service Management contains product overview information for the BRM Accelerator, and includes detailed processes and procedures about how to use the add-in.
