Release Notes

Service Pack 12.8.01

This Documentation, which includes embedded help systems and electronically distributed materials, (hereinafter referred to as the "Documentation") is for your informational purposes only and is subject to change or withdrawal by CA at any time. This Documentation is proprietary information of CA and may not be copied, transferred, reproduced, disclosed, modified or duplicated, in whole or in part, without the prior written consent of CA.

If you are a licensed user of the software product(s) addressed in the Documentation, you may print or otherwise make available a reasonable number of copies of the Documentation for internal use by you and your employees in connection with that software, provided that all CA copyright notices and legends are affixed to each reproduced copy.

The right to print or otherwise make available copies of the Documentation is limited to the period during which the applicable license for such software remains in full force and effect. Should the license terminate for any reason, it is your responsibility to certify in writing to CA that all copies and partial copies of the Documentation have been returned to CA or destroyed.

TO THE EXTENT PERMITTED BY APPLICABLE LAW, CA PROVIDES THIS DOCUMENTATION "AS IS" WITHOUT WARRANTY OF ANY KIND, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. IN NO EVENT WILL CA BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY LOSS OR DAMAGE, DIRECT OR INDIRECT, FROM THE USE OF THIS DOCUMENTATION, INCLUDING WITHOUT LIMITATION, LOST PROFITS, LOST INVESTMENT, BUSINESS INTERRUPTION, GOODWILL, OR LOST DATA, EVEN IF CA IS EXPRESSLY ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH LOSS OR DAMAGE.

The use of any software product referenced in the Documentation is governed by the applicable license agreement and such license agreement is not modified in any way by the terms of this notice.

The manufacturer of this Documentation is CA.

Provided with "Restricted Rights." Use, duplication or disclosure by the United States Government is subject to the restrictions set forth in FAR Sections 12.212, 52.227-14, and 52.227-19(c)(1) - (2) and DFARS Section 252.227-7014(b)(3), as applicable, or their successors.

Chapter 1: Introduction

Welcome to CA Desktop Migration Manager (CA DMM) 12.8.01 Release Notes. CA DMM is a scalable migration solution for the management, movement, and maintenance of a PC's DNA.

This document contains information on operating system support, product system requirements, installation considerations, general considerations, documentation, and information about contacting CA Technologies.

This section contains the following topics:

- [Operating System Support](#) (see page 7)
- [System Requirements](#) (see page 7)
- [Installation Considerations](#) (see page 7)
- [General Considerations](#) (see page 7)
- [Internationalization Support](#) (see page 8)
- [Documentation](#) (see page 9)

Operating System Support

CA DMM supports various Windows operating systems. For a complete list of supported operating systems, see the [Compatibility Matrix](#).

System Requirements

To run CA DMM, you need Internet Explorer 6 (or higher).

Installation Considerations

- Winsock 2.2 (or higher) must be installed correctly on the system where CA DMM is to be run. CA DMM cannot establish a connection without Winsock 2.2 (or higher) installed on both the old and the new computers.
- CA DMM does not support version upgrade. You must uninstall the current installation of CA DMM, and then install this version of CA DMM.

General Considerations

This section describes the general considerations for installing and using this release of CA DMM.

Backward Compatibility

If you try to apply a .dna file created with earlier versions of CA DMM using this release of CA DMM, the settings may not migrate properly for the following applications:

- MS Outlook Express (Windows Mail in Windows Vista)
- Corel Word Perfect

Internationalization Support

An *internationalized* product is an English product that runs correctly on local language versions of the required operating system and required third-party products, and supports local language data for input and output. Internationalized products also support the ability to specify local language conventions for date, time, currency and number formats.

A *translated* product (sometimes referred to as a *localized* product) is an internationalized product that includes local language support for the product's user interface, online help and other documentation, as well as local language default settings for date, time, currency, and number formats.

In addition to the English release of this product, CA Technologies supports *only* those languages listed in the following table.

Language	Internationalized	Translated
Brazilian Portuguese	Yes	Yes
French	Yes	Yes
German	Yes	Yes
Italian	Yes	Yes
Japanese	Yes	Yes
Korean	Yes	Yes
Traditional Chinese	Yes	Yes
Simplified Chinese	Yes	Yes
Spanish	Yes	Yes
English	Yes	Yes

Note: If you run the product in a language environment that is *not* listed in the table, you may experience problems.

Documentation

The CA DMM bookshelf provides you a comprehensive list of all the guides and online help systems available for the product. You can access the bookshelf from Start, All Programs, CA, Desktop Migration Manager, View Bookshelf. You can also download a copy from <http://www.ca.com/support>.

Note: Use Adobe Acrobat Reader 8.0 or higher to ensure that double-byte characters are displayed properly in the PDF files.

Chapter 2: Enhanced Features

This chapter gives you a high-level overview of the features that are enhanced in this release of CA DMM. You can quickly identify the improvements to the features of CA DMM and other applications in the migration toolkit that are important to you.

This section contains the following topics:

[Support for Microsoft Windows 8.1](#) (see page 11)

[Application and System Scripts](#) (see page 11)

Support for Microsoft Windows 8.1

This release of CA DMM supports the migration of Microsoft Windows 8.1 and Microsoft Office 2013. The application and system scripts have been enhanced to support these migrations. For more information about these scripts, see the *Inside Scripting Guide*.

Application and System Scripts

Following is the list of application and system scripts that are updated for this release:

Application Scripts

The following are the new or enhanced application scripts:

Internet Explorer

Enhanced to support Internet Explorer 11.

Flash Player

New application script to support Flash Player settings.

Java

New application script to support Java Control Panel settings.

System Scripts

The following system scripts have been enhanced to support Windows 8.1:

General

Enhanced the General system script to support the following system settings migration:

- Back-up and Restore settings
- Windows Defender settings

Note: For more details about these scripts, see the *Inside Scripting Guide*.
