Installation Guide

The *Installation Guide* has been restructured and describes the following methods of installing CA Librarian:

- CA MSM—CA MSM simplifies and unifies the management of CA mainframe products on z/OS systems. The services provided by CA MSM acquire, install, deploy, and maintain products in a common way.
- Pax-Enhanced Electronic Software Delivery (ESD)—This utility enables you to download and install CA's mainframe software and maintenance electronically to your own disk.
- Tape—You can use the sample JCL to install [set to your product name] from tape using the SMP/E RECEIVE-ACCEPT-APPLY method.

Implementation Guide

Due to the restructuring of the Installation Guide, the following Appendixes were moved from the Installation Guide to the Implementation Guide.

- Troubleshooting
- Reserve/Release Test Program

CA HTML Bookshelf

This release contains the CA HTML bookshelf, which is an HTML help system that provides access to all deliverables in the product documentation set in both HTML and PDF. HTML provides robust online viewing and search capabilities, while PDF provides a print-friendly option.

The HTML bookshelf features include:

- A single help screen that displays all documentation for this release.
- An all-in-one search tool that searches the entire documentation set and returns matches found in both the HTML and PDF formatted documentation, without the need for a specialized .PDX index file.
- Additional links for using the bookshelf, downloading Acrobat Reader, and contacting CA Technologies.

Note: You must have Adobe Reader 8 or above to view the PDF files in the bookshelf.

Access the Bookshelf

You can access the bookshelf from any page on CA Support Online (CA SO) using the Support By Product or Documentation links in the left navigation column.

To access the bookshelf

1. Log into CA Support Online.
2. Do one of the following:
 - Click Documentation in the left navigation column. This option lets you view a list of all available bookshelves.
 - Select a bookshelf by product:
 - a. Click Support By Product in the left navigation column.
 - b. Select the product from the drop-down list.
 - c. Click on the Bookshelves option.
3. Select the bookshelf you want to open from the list of available bookshelves.

The bookshelf opens in a separate window.
4. Select the guide you want to open from the bookshelf.

Search the Bookshelf

The bookshelf includes a search facility that helps you locate information throughout the set.

To search the bookshelf

1. Enter your search criteria in the Search field in the upper right corner of the bookshelf and press Enter.

The search returns HTML results listed by topic and PDF results listed by guide. The results are sorted by date so that the most recently updated topics or PDFs appear at the top of the list. To find a topic in a PDF, open the PDF and view the list of topics within the PDF that match the search criteria.

2. (Optional) Click Sort by Relevance.

The list is reordered so that the HTML topics or PDFs that contain the most matches appear at the top of the list.
