

## Specific Program Documentation

The Broadcom software program(s) ("Software") listed below is provided under the following terms and conditions in addition to any terms and conditions referenced on the Broadcom quote or other mutually agreed ordering document (each a "Transaction Document") entered into by you and the Broadcom entity ("Broadcom") through which you obtained a license for the Software. These terms shall be effective from the effective date of such Transaction Document.

### **Program Name: Symantec SSL Visibility**

#### **1. USE RIGHTS AND LIMITATIONS.**

- a. The Customer may use SSLV Visibility for up to the number of Cores as listed on the Transaction Document.
  - i. Cores refer to the processing unit within an appliance CPU, and to meet documented performance requirements.
- b. SSL Visibility (SSLV) is a virtual (software) appliance and is sold as a software subscription. It is then deployed on the Integrated Security Gateway (ISG) as an application. ISG is then deployed with the SSLV virtual appliance on all models of SSP appliances. SSLV is no longer sold with a perpetual software license. Host Categorization is included with the SSLV software subscription. It is no longer sold as an optional add-on.
- c. All deployments of SSLV on hardware appliance models of SSP-S410 require a QAT (Quick Assist Technology) ISG-FRU-QAT-S410, add-on accessory card that increases connections per second performance requirements. The QAT add-on card is not required for any other SSP appliance models, as the CPU on other models includes QAT in the CPU.
- d. At this time, SSLV is not available to run as a standalone virtual appliance on a customer-provided hypervisor virtual infrastructure.

#### **2. THIRD PARTY INFORMATION AND TERMS**

Any required third-party software license terms are incorporated by this reference and are set forth in online documentation for the Software. Broadcom, the pulse logo, and Connecting everything are among the trademarks of Broadcom and/or its affiliates in the United States, certain other countries, and/or the EU.
