

## VMware Health and Security Toolkit Specific Program Documentation (“SPD”)

The Broadcom software program(s) (“Broadcom Software”) listed below is provided under the following terms and conditions in addition to any terms and conditions referenced on the Broadcom quote, order form, statement of work, or other mutually agreed ordering document (each a “Transaction Document”) under the applicable end user agreement or governing contract (collectively, the “Agreement”) entered into by Customer and the Broadcom entity (“Broadcom”) through which Customer obtained a license for the Broadcom Software. These terms shall be effective from the effective date of such Transaction Document. Capitalized terms have the meanings ascribed to them herein, or, otherwise, in the Agreement.

The version of the SPD published on [legaldocs.broadcom.com](http://legaldocs.broadcom.com) on the date that Broadcom accepts the Customer’s Transaction Document for Broadcom Software applies to the version of Broadcom Software in that Transaction Document. If Customer installs a release of Broadcom Software that Broadcom provides as part of Support services, then the then-current version of the SPD published on [legaldocs.broadcom.com](http://legaldocs.broadcom.com) on the date Customer installs that release applies to that release of Broadcom Software.

### **Program Name: *VMware Health and Security Toolkit (HST)***

#### **1. DESCRIPTION.**

VMware Health and Security Toolkit (HST) automates the collection and analysis of environments using Software offered from VMware by Broadcom. HST may only be used by authorized Broadcom partners and Customers under specific authorization.

#### **2. USE RIGHTS AND LIMITATIONS.**

- Customer use of Software is conditioned on Customer agreeing to Software collecting HST data from Broadcom software deployed at Customer’s site for the purpose of providing Customer-specific reports and assessments (“HST Reports”), improving Broadcom’s software and services, helping Broadcom better understand Customer needs and advise Customer on how best to deploy and use Broadcom software, and providing Customer with ongoing services and support.
  - The collected data consists of technical information about Broadcom software and services deployed in Customer environments, as further described below, as well as Customer organization’s Broadcom software entitlements (i.e. license key(s), license file(s)), and TAM engagement identifier(s). This data does not personally identify any individual and is securely sent over the Internet to Broadcom secured servers for processing.
    - **HST Data Collected.** HST collects the following categories of information:
    - Configuration Data – Technical data about how Customer organization has configured Software and services and related environment information. Examples of Configuration Data include version information for Software, Software environment information, Software configuration settings and technical data relating to the devices accessing those Software and services.
    - Feature Usage Data – Data about how Customer organization uses Software and services. Examples of Feature Usage Data include details about which Software features Customer organization uses and metrics of user interface activity.
    - Performance Data – Data about the performance of Software and services. Examples of Performance Data include metrics of the performance and scale of VMware products and services, response times for user interfaces, and details about your API calls.

- **Disclaimer.** The HST Reports are provided as general guidance for organizations that are considering Broadcom solutions, is not intended to provide advice, and is provided "AS IS." Broadcom makes no claims, promises, or guarantees about the accuracy, completeness, or adequacy of the information contained therein.

### 3. THIRD PARTY INFORMATION AND TERMS.

Any required third-party software license terms are incorporated by this reference and are set forth in online documentation at [techdocs.broadcom.com](http://techdocs.broadcom.com) or [legaldocs.broadcom.com](http://legaldocs.broadcom.com).
