VMware Tanzu Platform
Specific Program Documentation ("SPD")

The Broadcom software program(s) ("Broadcom Software" or "Software") listed below is provided under the following terms and conditions in addition to any terms and conditions referenced on the Broadcom quote, order form, statement of work, or other mutually agreed ordering document (each a "Transaction Document") under the applicable end user agreement or governing contract (collectively, the "Agreement") entered into by Customer and the Broadcom entity ("Broadcom") through which Customer obtained a license for the Broadcom Software. These terms shall be effective from the effective date of such Transaction Document. Capitalized terms have the meanings ascribed to them herein, or, otherwise, in the Agreement (including the VMware Licensing Glossary).

VMware Tanzu Platform includes the following components:
- Core Services for VMware Tanzu Platform
- Data Services for VMware Tanzu Platform
  - Postgres Service for VMware Tanzu Platform
  - MySQL Service for VMware Tanzu Platform
  - Valkey Service for VMware Tanzu Platform
  - VMware Tanzu RabbitMQ Service for VMware Tanzu Platform
- VMware Tanzu Spring Services for VMware Tanzu Platform
- VMware Tanzu Kubernetes Grid integrated (TKGi)

1. DEFINITIONS.

All terms defined in the VMware Licensing Glossary located at http://www.broadcom.com/company/legal/licensing apply to this SPD unless specified herein.

"**Tanzu Platform units**" are platform consumption units that are convertible to units of VMware Tanzu Platform components, including Cores, Application Instances, or Service Instances.

"**Control plane components**" are jobs in the Cloud Foundry tile used to support Tanzu Platform, such as the Router or MySQL Server.

2. USE RIGHTS AND LIMITATIONS.

The Software is licensed as Subscription Software. Customer may use the Software and Support solely during the Subscription term. Customer may use the Software for up to the number of Tanzu Platform units purchased. Control plane components are excluded from Tanzu Platform units as measured by a properly functioning and up-to-date Tanzu usage service deployed by the Cloud Foundry tile. Customer must provide usage data from Tanzu Platform to Broadcom via telemetry within ten (10) days after the end of each month. Customer must pay for all the Software Customer uses.

At the end of the Subscription term, Customer may have the option to renew the Subscription licenses. If Customer does not renew, the Subscription licenses shall expire at the end of the Subscription term. Upon expiration or termination of Customer's licenses to the Software, Customer must cease use of the Software, Documentation and Support and certify cessation of use to VMware.

VMware may, at its discretion, retire Software and/or Support from time to time.

3. TANZU PLATFORM UNIT ALLOCATIONS FOR VMWARE TANZU PLATFORM COMPONENTS

The Software is entitled differently depending on the component. Tanzu Platform units allocated by the components are listed below. Changes may occur to the documented ratios of Tanzu Platform units to the entitlement provided. However other than changes to the types of entitlements, those ratios are based on the ratios when the Transaction Document is accepted by Broadcom, and remain constant throughout the Subscription term. Tanzu Platform units are allocated by the customer at any point during the Subscription term.

Component	Entitlement Provided	Tanzu Platform units Allocated
VMware Tanzu Platform	1 Application Instance (AI) or 1 Service Instance (SI)	6 units A minimum of 100 (AI + SI) must be allocated to Tanzu Platform in order for Tanzu Platform to be entitled.
VMware Tanzu Kubernetes Grid integrated	1 Core	1 unit

The entitled Data Services for VMware Tanzu Platform and VMware Tanzu Spring Services for VMware Tanzu Platform are only entitled for use running in AIs or SIs on VMware Tanzu Platform and cannot be used independently.

4.   THIRD PARTY INFORMATION AND TERMS.

Any required third-party software license terms are incorporated by this reference and are set forth in online documentation at techdocs.broadcom.com or legaldocs.broadcom.com.
