

VMware Tanzu Spring Essentials Specific Program Documentation (“SPD”)

The Broadcom software program(s) (“Broadcom Software” or “Software”) listed below is provided under the following terms and conditions in addition to any terms and conditions referenced on the Broadcom quote, order form, statement of work, or other mutually agreed ordering document (each a “Transaction Document”) under the applicable end user agreement or governing contract (collectively, the “Agreement”) entered into by Customer and the Broadcom entity (“Broadcom”) through which Customer obtained a license for the Broadcom Software. These terms shall be effective from the effective date of such Transaction Document. Capitalized terms have the meanings ascribed to them herein, or, otherwise, in the Agreement (including the VMware Licensing Glossary).

VMware Tanzu Spring Essentials provides the following capabilities and entitlements:

- **Tanzu Spring**
 - Access to Spring Enterprise artifact repository
 - Spring application discovery, enhanced visibility and observability
 - Enterprise Spring Boot extensions
 - Enterprise Spring Cloud components
 - Access to binary downloads of Tanzu Distribution of OpenJDK™, Apache Tomcat and Tanzu tc Server
 - Support for:
 - 50+ open source Spring projects
 - OpenJDK™
 - Apache Tomcat
- **Tanzu Build Service**
 - Create an OCI image from application source code using Cloud Native Buildpacks.

1. DEFINITIONS

All terms defined in the VMware Licensing Glossary located at <http://www.broadcom.com/company/legal/licensing> apply to this SPD unless specified herein.

“Tanzu Spring Essentials Unit” is a consumption unit that is convertible to units of Tanzu Spring Essentials components, specifically Cores.

“Developer” means an individual who creates or modifies source code. The Developer may be: (a) employed by Customer; or (b) under contract with Customer.

2. USE RIGHTS AND LIMITATIONS.

The Software is licensed as Subscription Software. Customer may use the Software and Support solely during the Subscription term. Customer must pay for all the Software Customer uses.

The Software is licensed based on Tanzu Spring Essentials Units. One Tanzu Spring Essentials Unit equals one Core, for which the total represents the number of Cores used to run Spring applications or images generated by Tanzu Build Service.

Alternatively, for the number of Cores used to run Spring applications, Customer may choose to use the Developer metric with a ratio of one Developer to five Cores. The Developer metric does not include the number of Cores used for images generated by Tanzu Build Service.

At the end of the Subscription term, Customer may have the option to renew the Subscription licenses. If Customer does not renew, the Subscription licenses shall expire at the end of the Subscription term. Upon expiration or termination of

Customer’s licenses to the Software, Customer must cease use of the Software, Documentation and Support and certify cessation of use to VMware.

VMware may, at its discretion, retire Software and/or Support from time to time.

3. THIRD PARTY INFORMATION AND TERMS.

Any required third-party software license terms are incorporated by this reference and are set forth in online documentation at techdocs.broadcom.com or legaldocs.broadcom.com.
